AFTERSCHOOL : FUN AT HOME

DO YOU KNOW US?

We're the slowest animals
on earth!

GALAXY FUN FACTS

- The Milky Way is the home of our solar system.
- Astronomers believe there are over 100 billion galaxies in the observable universe.
- Small dwarf galaxies can have ten million stars!
- Astronomers believe the center of every galaxy contains a massive black hole.

Can you
sing
a rainbow?

Hi, I'm a quokka!
Do you know my cousin the
kangaroo?
If you're looking for me, I'll be on
Rottenest Island in Australia!
See you there!

AFTER SCHOOL: ACTIVITIES THIS WEEK

Monday

Oceania

Welcome to New Zealand!
Let's have a look around and
learn about the Māori culture.
Are you ready to learn the haka
dance?

New Zealand:
Māori
Travel Kids in
Oceania

Tuesday

Light & Shadow

Do you remember about the
different planets?
We are going to learn more
about our solar system

SOLAR SYSTEM -
The Dr. Binocs Show

Thursday

Science fiction

Now we created the lovely
planets of our story, let's make
a spaceship to travel from one
planet to the other.
Can you imagine what the
universe looks like in that world?

Rocky's Space
Adventure!

Friday

Rapidity

Time for challenges!
Let's see what you can do in 1
minute, 5 minutes and 10 minutes!
Are you ready for the challenge?

Minute to Win
It Challenge
Games for Kids
